

PROGRAM OF BACHELOR AND MASTER STUDIES ON THE FACULTY OF ARCHITECTURE AND URBAN PLANNING 1 rok 3465
FACULTY OF ARCHITECTURE AND URBAN PLANNING, GDAŃSK UNIVERSITY OF TECHNOLOGY

dating 12th July 2007.

SUBJECTS: l - lecture; e - exam; t/s - tutorial/ seminar lab - laboratories; d - design studio; E-ECTS	course code	Sum hours	Hours per week	SEMESTER I		SEMESTER II		SEMESTER III		SEMESTER IV		SEMESTER V		SEMESTER VI		SEMESTER VII		SEMESTER VIII		SEMESTER IX		SEMESTER X

				acad. year 2007/2008																						acad. year 2008/2009																						acad. year 2009/2010																						acad. year 2010/2011																						acad. year 2011/2012																																																			
GENERAL SUBJECTS																								A																																																																																																																							
Foreign Language: English German French Spanish Italian Russian Swedish	A.1.1.	120	8			2		1		2		1		2		1		2		1		2		1																																																																																																																							
Sport	A.1.2.	60	4			2		1		2		1		2		1		2		1		2		1																																																																																																																							
BASIC SUBJECTS																								B																																																																																																																							
SCIENCES																								B.1.																																																																																																																							
Mathematics (+60 h pr. wyrównawczy)	B.1.1.	60	4			2		2		e	2		3																																																																																																																																		
Descriptive Geometry	B.1.2.	90	6	2		1		1		5		2		e	1		4																																																																																																																														
ECONOMICS AND LEGISLATION																								B.2.																																																																																																																							
Introduction to Local Governance	B.2.1.	15	1																	1				1																																																																																																																							
Legislation: Building Law & Planning Regulations	B.2.2.	15	1																	1				2																																																																																																																							
Design Economics	B.2.3.	30	2																	1		1		2																																																																																																																							
Organisation & Management of Investment Process	B.2.4.	30	2																	1		1		2																																																																																																																							
HUMANITIES																								B.3.																																																																																																																							
Philosophy: Man and Space	B.3.1.	15	1																																																																																																																																												
Professional Ethics	B.3.2.	15	1																	1		e		2																																																																																																																							
Aesthetics	B.3.3.	15	1																			1		1																																																																																																																							
History of Art	B.3.4.	30	2																	1				1																																																																																																																							
ENVIRONMENTAL SCIENCES																								B.4.																																																																																																																							
Ergonomics	B.4.1.	15	1	1																																																																																																																																											
Land Surveying																																																																																																																																															
Environmental Aspects of Architectural Design, Urban Planning and	B.4.2.	30	2							1		1		2																																																																																																																																	
Built Environment Sociology	B.4.3.	30	2											1		1								1																																																																																																																							
Perception of Space	B.4.4.	15	1											1										1																																																																																																																							
VISUAL ARTS																								B.5.																																																																																																																							
Architectural Drawing & Graphical Techniques	B.5.1.	45	3			2		3		1		2																																																																																																																																			
Drawing, Painting + field study: plein air painting	B.5.2.	135	9			2		2		3		3		2		2		2		1		2																																																																																																																									
Sculpture	B.5.3.	30	2																																																																																																																																												
Fabric, Texture & Colour Composition in Architecture	B.5.4.	60	4																																																																																																																																												
Interior Design/Interior Architecture																																																																																																																																															
Computer Techniques /Computer Aided Design - CAD	B.5.5.	60	4			2		2		1		2																																																																																																																																			
CORE SUBJECTS																								C																																																																																																																							
HISTORY OF ARCHITECTURE AND URBAN PLANNING																								C.1.																																																																																																																							
History of World Architecture	C.1.1.	90	6	1		1		2		1		1		2		1		e	1		3																																																																																																																										
History of Urban Planning	C.1.2.	75	5							1		1		2		1		e	1		3																																																																																																																										
History of Polish Architecture	C.1.3.	105	7											1		1		2		1		e	2	3																																																																																																																							
Contemporary Architecture	C.1.4.	30	2											1										1																																																																																																																							
TECHNICAL SUBJECTS																								C.2.																																																																																																																							
Building Materials & Products	C.2.1.	45	3			1		2		1		e	1		2																																																																																																																																
Structural Mechanics	C.2.2.	90	6					1		2		3		1		e	2		4																																																																																																																												
Building Physics	C.2.3.	60	4																	1		1		1																																																																																																																							
Architectural and Urban Acoustics	C.2.4.	30	2																			1		1																																																																																																																							
Construction Technology (+ field studies)	C.2.5.	165	11					1		2		3		1		1		1		3		1		e	1	3																																																																																																																					
Structures	C.2.6.	135	9											1		2		3		1		2		3																																																																																																																							
Building Services and Infrastructure	C.2.7.	30	2																			1		1	2																																																																																																																						
Advanced Building Services Systems	C.2.8.	30	2																																																																																																																																												
Urban Infrastructure	C.2.9.	15	1																			1		1																																																																																																																							
Traffic Engineering	C.2.10.	15	1																			1		1																																																																																																																							
Design Consultations (specialists)	C.2.11.	45	3																																																																																																																																												
DESIGN SUBJECTS																								C.3.																																																																																																																							
Theory of Architecture Design	C.3.1.	30	2																																																																																																																																												
Architecture Design Studio	C.3.2.	495	33	1		2		2		7		1		2		2		6		1		2		2	6																																																																																																																						
Theory of Rural Architecture and Planning	C.3.3.	15	1																																																																																																																																												
Rural Architecture and Planning Design Studio (+ field study)	C.3.4.	45	3																																																																																																																																												
Theory of Urban Planning	C.3.5.	30	2																																																																																																																																												
Urban Planning Design Studio (+ field study)	C.3.6.	210	14											1		1		2		5		1		1	2	5																																																																																																																					
Landscape Architecture	C.3.7.	60	4																																																																																																																																												
Regional Planning: Theory & Design Studio	C.3.8.	45	3																																																																																																																																												
Theory of Spatial Planning	C.3.9.	15	1																																																																																																																																												
Spatial Studies and Plans	C.3.10.	75	5																																																																																																																																												
Theory of Conservation																																																																																																																																															
Building Conservation: Theory and Design Studio	C.3.11.	75	5																																																																																																																																												
Electives subjects	C.3.12.	75	5																																																																																																																																												
Electives Design Studio	C.3.13.	135	9																																																																																																																																												
DIPLOMA SUBJECTS																								C.4.																																																																																																																							
Pre- and Diploma Subjects	C.4.1.	45	3																																																																																																																																												
Pre- and Diploma Design Studio	C.4.2.	210	14																																																																																																																																												
Pre- and Diploma Design Consultations (specialists)	C.4.3.	30	2																																																																																																																																												
Diploma Project Preparation	C.4.4.	0	0																																																																																																																																												
SUM OF HOURS		3465	231																																																																																																																																												
SUM OF ECTS PER SEMESTER		%	300					28				32				30			30				30																																																																																																																								
lectures		27,27	945	63	5					7						7			6				8																																																																																																																								
tutorial/ seminar		48,05	1665	111		14					18					13				13																																																																																																																											
laboratories		3,03	1
