WP number and title: WP 7 – Study Visits

Visitor’s name: Herbert Mullner

Affiliations: Vienna University of Technology

Visit coordinator: Michał Zasada

Time: 11.10 – 15.10.2005

Aim of the visit:
• Exchange of knowledge in the field of shell structures, especially modeling in Finite Element Method

Results:
• Discussion on the subject of use Finite Element Method Models for shell structures. Presentation of research results and discussion of future possible cooperation.

Other activities:
• Presentation: “Finite element analysis of layered wooden shells under application of an orthotropic single-surface plasticity model”, H.W. Müllner, J. Eberhardsteiner, H.A. Mang
• Participation in conference: “Shell structures theory and applications, Jurata 2005”
