

# ADVANCES IN MATERIALS SCIENCE

*following former ACTA TECHNICA GEDANENSIA  
in specific field of Materials Science and Engineering*

*Published by*  
Gdańsk Scientific Society

*under the auspices of*  
Polish Materials Society

*Volume 6*

*October*

*number 2 (10)*

ISSN 1730-2439

## **Editor - in - Chief:**

Andrzej Zieliński

### **Editorial Board:**

Jerzy Łabanowski (Co-Editor)

Janusz Ćwiek (Co-Editor)

Krzysztof Krzysztofowicz (Secretary)

Gabriela Wołoszyk

### **International Advisory Panel:**

R. Akid, UK  
A. Barbacki, Poland  
A. Czyrska-Filemonowicz, Poland  
M. Danielewski, Poland  
D. Desjardins, France  
L.A. Dobrzański, Poland  
A. Dziadoń, Poland  
I. Esat, UK  
V. Goltsov, Ukraine  
K. Haberko, Poland  
H. Hanninen, Finland  
H. Leda, Poland  
E. Łunarska, Poland  
B. Major, Poland  
E.J. Mittemeijer, Germany  
H. Morawiec, Poland  
J. Nowacki, Poland  
J.M. Olive, France  
J. Onoro, Spain  
A. Pomogailo, Russia  
T. Wierzchoń, Poland

**Editorial Office:** Advances in Materials Science, Department of Materials Science and Engineering, Gdańsk University of Technology, 11/12 Narutowicza, 80-952 Gdańsk, Poland. tel. (+48 58) 347 26 98, fax (+48 58) 347 18 15, e-mail: kim@mech.pg.gda.pl

*Advances in Materials Science* publishes scientific and review papers on various aspects of materials science. The preferred topics include: environmental degradation, surface engineering and advanced materials. Both fundamental aspects of materials science and engineering, and application problems can be presented in the published papers. The periodical is open to researchers of all countries, both top experts as well as young scientists. All contributions should be written in English. Papers will be reviewed.

AMS is available at the website [www.pg.gda.pl/mech/kim/ams](http://www.pg.gda.pl/mech/kim/ams) every 3 months. All papers are printed in hard copy as Volume No 1 – 4 in the end of each year. The supplementary information, as instructions for authors, and full texts of recently printed papers are also available at the website.

## CONTENTS

	Page
<b><i>Magdalena Dudek, Krzysztof Ziewiec</i></b> PREPARATION AND THE ELECTROLYTIC PROPERTIES OF CaO-Sm <sub>2</sub> O <sub>3</sub> -CeO <sub>2</sub> CERIA SOLID SOLUTIONS.....	4
<b><i>Bartosz Nowak, Jerzy Najar</i></b> NUMERICAL SIMULATION OF INFLUENCE OF CHOSEN PARAMETERS ON TENSILE STRESS IN BONE CEMENT LAYER IN TOTAL HIP ARTHOPLASTRY .....	9
<b><i>Eugeniusz Ranatowski</i></b> CHARACTERISTIC OF THE MAIN COMPUTATIONAL STEP IN THE ESTIMATE OF WELDABILITY .....	18
<b><i>Dariusz Rydz, Robert Skoblik</i></b> NUMERICAL MODELLING OF ASYMMETRIC DOUBLE-LAYER Al-Cu PLATE ROLLING PROCESS .....	29
<b><i>Wit Witkiewicz, Andrzej Zieliński</i></b> PROPERTIES OF THE POLYURETHANE (PU) LIGHT FOAMS .....	35
